

MEMORANDUM

To: Senior Qualified NSF Representative
From: Leo Francendese EPA OSC at the TVA Kingston Fossil Fuel Plant Release Site
Re: Letter of Federal Designation Concerning Health and Safety On-Site

Paragraph 50 of the Administrative Order and Agreement on Consent identifies the EPA OSC as being responsible overseeing TVA's implementation of the Order, in consultation with TDEC and TVA's Project Coordinator.

The EPA OSC has enlisted the USGST to serve as his Health and Safety on-site overseer thru an existing Interagency Agreement.

The USGST has the delegated on-site authority to stop work due to Health and Safety concerns and has the additional authority to respond in an event in case of an emergency.

In the event that the EPA OSC is not on-site, the USGST has delegated authority to conduct the above actions as the OSC Representative. The USGST shall notify the EPA OSC in as fast a manner as is practicable considering the circumstances.

Leo Francendese
USEPA R4 OSC
